

CliniClue[®] Xtend

See your own
SNOMED CT[®] Extensions
in *CliniClue[®]*

CliniClue[®] Xtend can import the following types of SNOMED CT Extension data and allows them to be viewed in *CliniClue[®] Xplore*.

- Language Translations
- Concepts, Descriptions & Relationships
- Subsets and Reference Sets
- Alternative Navigation Hierarchies

The *ClueData* files can be shared with *CliniClue* freeware users (subject to IHTSDO and IHTSDO Member licences)

Supported Extensions

CliniClue[®] Xtend imports the following types of SNOMED CT[®] Extensions and Derivatives from standard IHTSDO[®] Release Format (RF1) files and generates *ClueData*.

Language Translations

- Imports translation data from an RF1 'Descriptions' file and a Language Subset/Refset.
- The generated *ClueData* allows the translations to be searched, viewed and compared with other language versions in *CliniClue Xplore*.

Subsets and Refsets

- Imports RF1 'Subsets' and 'SubsetMembers' files containing the relevant data.
- The generated *ClueData* allows the set to be selected as a constraint on *CliniClue Xplore* searches and/or display.

Alternative Hierarchies

- Imports RF1 'Subsets' and 'SubsetMembers' files containing the relevant information.
- The generated *ClueData* allows the alternative hierarchy to be selected and viewed in *CliniClue Xplore*.

National/Local Extension Content

- Imports RF1 'Concepts', 'Descriptions' and 'Relationships' and converts these to *ClueData*. This is linked to the International Edition in *ClueData* format.
- The Extension data is fully integrated with the International Edition and can be viewed using *CliniClue Xplore*.

Using and Sharing ClueData

CliniClue[®] Xtend generates *ClueData²⁰⁰⁹* files. These files represent SNOMED CT Extensions and Derivatives in an optimised form that can be searched and viewed using *CliniClue[®] Xplore*.

CliniClue[®] Xplore

- The latest version of the well known and widely used SNOMED CT[®] freeware browser.
- Even easier to use and faster than previous versions.
- Uses the redesigned extensible *ClueData²⁰⁰⁹* format to support the new functionality offered by *CliniClue[®] Xtend*.

ClueData Sharing

- *ClueData* files generated using *CliniClue[®] Xtend* can be shared with *CliniClue* freeware users.
- A *CliniClue[®] Xtend* license is not required to view these files.
- Generated *ClueData²⁰⁰⁹* files are linked to files built from the SNOMED CT International Edition. International Edition *ClueData²⁰⁰⁹* is available to all licensed users, so it does not need to be redistributed with the generated *ClueData*.

Future Developments

In 2010 *CliniClue[®] Xtend* will be updated to support the proposed IHTSDO[®] Release Format 2 (RF2). This and other and enhancements will be made available as part of *CliniClue[®] Xtend - Support and Maintenance Subscription*.

To purchase *CliniClue[®] Xtend* or receive a formal quotation (or just to find out more) please email your contact details and requirements to xtend@cliniclue.com.

Other *CliniClue*[®] *Xtend* features

User-Interface Translation Support

- *CliniClue*[®] *Xtend* licensees are also provided with tools that allow them to translate the user-interface of *CliniClue Xplore*.
- The translation process is supported by a simple editor to create and maintain a file in which alternative screen captions, prompts, tooltips and messages are specified.
- The resulting user-interface translation file can be distributed with the *ClueData* files or separately.

Help File Translation Support

- *CliniClue*[®] *Xtend* licensees are also provided with the files from which *CliniClue* help files are generated and are licensed to create translations of these files.
- Translated help files can be made accessible from the *CliniClue* help menu in addition to the English language version of the file.
- Translated help files can be distributed with *ClueData* and user-interface translation files or separately.

Distribution Support

- *CliniClue*[®] *Xtend* licensees are permitted to distribute *ClueData* files, subject to compliance with license conditions applied by the IHTSDO and by the originators of material in the Extensions incorporated in those files.
- Initial *CliniClue*[®] *Xtend* training includes advice on options for distribution of the *ClueData*, user-interface and help files in ways that make it easy for end-users to import and use these files. Distribution can be direct or via the *CliniClue* online update service.

System Requirements

Operating System: Windows[®] 2000, XP or Vista.

Memory: Minimum 1Gb (Recommended 4Gb)

Free Disk Space: Minimum 2Gb

Required Preinstalled Software

CliniClue[®] *Xtend* requires that *CliniClue Xplore* is pre-installed. The versions of *CliniClue*[®] *Xtend* and *CliniClue Xplore* must be matched or certified as compatible.

CliniClue[®] *Xtend* requires Microsoft Access[®] (2000 or later) to create temporary data storage while building *ClueData*. This is only required for *CliniClue*[®] *Xtend* functionality. It is not required by *CliniClue Xplore* end-users.

CliniClue[®] *Xtend* Licence

The initial purchase price of a *CliniClue Xtend* Licence includes the following:

Software licence

- A licence to install and use *CliniClue*[®] *Xtend* software on up to three computers.

Training

- Three 90 minute web-based training sessions covering aspects of *CliniClue*[®] *Xtend*.

Support and Maintenance

- *CliniClue*[®] *Xtend* Support and Maintenance Subscription for the first year. See details below.

Price: £5,200.00

Includes first year Support and Maintenance

CliniClue[®] *Xtend* Support and Maintenance Subscription

An annually renewable subscription for *CliniClue*[®] *Xtend* Support and Maintenance includes the following services:

Support

- Email support for problems with use of *CliniClue*[®] *Xtend*. Where necessary by phone and web based remote support.
- This support is limited to two named individuals in the licensee organisation. It does not cover general issues with *CliniClue Xplore*, except where these relate directly to use of resources generated using *CliniClue*[®] *Xtend*.

Maintenance

- Updates to *CliniClue*[®] *Xtend* software during the period of the subscription. These updates are essential to ensure all *CliniClue*[®] *Xtend* licensees have access to the latest version of the software.
- Provision of updated *CliniClue*[®] help source files (in DITA and/or HTML format) to enable translation of these files.
- Provision of updates to user-interface translation tools.

Distribution service

- Optional facility to provide your content Extensions, user interface translations and help files as part of the standard online update service accessible to all *CliniClue* users.

Price: £1,700.00

Renewable annually after the first year

To purchase *CliniClue*[®] *Xtend* or receive a formal quotation (or just to find out more) please email your contact details and requirements to xtend@cliniclue.com.
